

Bar stool by Étienne Fermigier, Mirima, circa 1975

Etienne Fermigier

200

REF: 8345

Height: 75 cm (29.5")

DESCRIPTION

Pair of adjustable stools designed by Étienne Fermigier in the 1970s, featuring perforated seats inspired by the distinctive form of tractor seats.

Made of white lacquered steel, the seats rest on central chrome-plated steel stems with wide circular bases edged in rubber. Their height can be adjusted by means of a hydraulic mechanism. One of the two stools is fitted with a circular

chrome-plated steel footrest.

Signs of use on the seats and bases.

Seat height: 25.6 to 30.7 in.

Manufacturer: Mirima, circa 1975.
