DESCRIPTION

Colored resin frame by Gaetano Pesce (1939-2024), produced by Fish Design in the 1990s.

Made of transparent resin with blue and red inclusions, this piece perfectly embodies the organic and experimental language of the Italian designer. Each example, hand-poured, features unique chromatic variations that make it a one-of-a-kind creation - halfway between functional object and collectible art piece.

Pesce transforms the everyday into a poetic exploration of material and color, blurring the boundaries between design and sculpture.

Signed and numbered in the resin : Fish Design 227
